---

Freelance product designer with 6+ years inside fast-shipping creator-economy teams. Specialised in product strategy, UX/UI, and art direction for ambiguous, high-stakes briefs. Currently working with clients across the UK, Switzerland, Latvia, Russia, and Indonesia.

## SELECTED WORK

---

**VIRIL** · Product, Brand Strategy, UX/UI Oct 2024

European men's health brand built from zero in 5 weeks. 64 screens across EN/ES × desktop/mobile, including a 7-question recommendation quiz that replaces self-diagnosis with guided choice. Live at [viril.live](https://viril.live).

**EAZY ENERGY** · Product, Art Direction 2023 — 2025

National energy drink. Led creative across packaging, 7-city tour, and racing sponsorships over 2 years. 13,359+ units sold · 4.5★ across 2,571 verified Wildberries ratings · plus offline + Ozon retail.

**GABARSHOP** · Product, E-commerce 2020 — present

Creator merch store. 4 years in-house, 2+ years on-call. End-to-end ownership: from material selection at the factory and packing orders by hand to the full storefront UX rebuild. 100K+ units across 40+ SKUs. Live at [gabarshop.com](https://gabarshop.com).

**EMTECH INVEST × DAVOS** · Product, Art Direction Jan 2026

Closed-door investment event during WEF week. Brand built from near-zero in 6 weeks, 66 participant profiles, full event lifecycle materials. Press partner: Cryptopolitan.

**OUR WALL** · Product, UX (self-initiated) Sep 2025 — present

Anonymous social network built on AI-assisted code in one week. 1,132 organic users, 1,311 posts, single YouTube video as the only acquisition source. Live at [ourwall.ru](https://ourwall.ru).

**TALENT** · Product, UX/UI (self-initiated) Dec 2024

Multi-format licensing platform for independent creators — footage, music, SFX, images, licensed text under one roof. 45 screens, 17 modal states, fully prototyped in Figma with realistic content.

**LOYO & BONDAR** · Product, Art Direction Dec 2025 — Mar 2026

Premium Bali villa developer. External art director sitting upstream of execution: decoded fragmented briefs from four marketing leads, defined per-audience communication logic, ran a pipeline pushing past 100 slides per peak week. Live at [loyobondar.com/en/](https://loyobondar.com/en/).

## SCOVILLE · Product, Packaging Design

Feb 2026

Spicy ice cream packaging for Samokat — designed twice. First version killed by retailer mid-process; second built from near-zero in days, kept the cold/spicy product tension intact. Live in Samokat catalogue.

## APPROACH

---

— Lead briefs with Jobs-To-Be-Done — extract what the user is actually trying to accomplish before designing the artifact.

— Build the system before the artifact — define what the brief requires, then design within that frame.

— Iterate on user behaviour, not stakeholder preference. Ship, watch, adjust.

— AI-assisted prototyping when speed-to-real-users matters.
